PROFESSIONAL PROFILE

I lead technical discovery, consultation and client relationship operations.

Expert in managing the full customer lifecycle, from first contact, RFI/RFP responses and PoCs to leading complex integration, customer onboarding and continued ROI.

While deeply technical, I maintain a strong customer-forward motivation in guiding SME and enterprise clients, bridging the gap between client needs and engineering sprints to ensure application reliability and customer success.

PROFESSIONAL EXPERIENCE

[tripunkt GmbH](#) – Software Solutions Consultant (2020–2026)

- Led the international sales and support for Pathfinder suite across the complete customer lifecycle
- Managed and maintained continuity of customer service and ensured stable product adoption across 10 international accounts
- Sustained system reliability and met SLA commitments in a high-volume production environment of approximately 40 tickets per week
- Facilitated Scrum ceremonies and managed Kanban workflows, across team meetings

[Larsen and Toubro](#) – Technical Training Coordinator (2015–2016)

- Enabled consistent onboarding across a team of 60 engineers by aligning training delivery with technical requirements at scale
- Established repeatable knowledge transfer processes, reducing dependency on ad-hoc training and improving onboarding consistency
- Maintained alignment between training design documentation and delivery reports, ensuring consistent execution and visibility across stakeholders

Earth Telecommunication Pvt. Ltd. – Network Operations Engineer (2013–2015)

- Maintained high network uptime and service continuity across 500+ SME and enterprise level clients by ensuring rapid incident response and resolution
 - Ensured standardized and scalable LAN/WAN setups, reducing future configuration errors and support overhead
 - Reduced mean time to resolution (MTTR) through structured troubleshooting across connectivity, configuration, and hardware layers.
