Contact: +4917634630716 | **Address:** Berlin, Germany

Work Authorization: Niederlassungserlaubnis (Permanent resident)

PROFESSIONAL PROFILE

Technical Operations Engineer with 10+ years of experience supporting enterprise software, SaaS platforms, systems integration, and mission-critical production environments. Expertise in Tier-3 troubleshooting, incident management, root cause analysis, API integrations, SQL analysis, and operational reliability.

Led complex deployments, integrations, and critical production environments across North America, APAC, and DACH regions. Recognized for resolving high-impact technical issues, improving platform performance, and driving operational excellence at scale.

Trusted to improve system stability, optimize operational processes, and deliver scalable technical solutions through close collaboration with engineering, product, and infrastructure teams and translating business requirements into scalable technical solutions.

PROFESSIONAL EXPERIENCE

tripunkt GmbH — QA and Release Validation (2024 – 2026)

Managed regression test cycles and validated software releases against database schemas and integration specifications within Docker testing environments.

Identified pre-release defects via API payload inspection and log stream auditing, coordinating directly with engineering to verify hotfixes.

tripunkt GmbH — Software Solution Consultant (2020–2024)

Resolved approximately 40 Tier-3 incidents weekly across global enterprise customers SaaS deployments, troubleshooting API integrations, application services, and database layers.

Isolated production defects using CLI log analysis (grep/awk), API tracing (Postman/Swagger), and cross-database validation (PostgreSQL, MySQL, SQL Server).

Configured, debugged, and documented REST API integration workflows and schemas across Docker-based and on-prem environments.

Standardised global troubleshooting frameworks and escalation procedures, driving a 30% reduction in recurring production incidents.

Authored technical integration diagrams and operational runbooks to support enterprise onboarding across NAM, APAC, and DACH regions.

Larsen and Toubro — Technical Training Coordinator (2015–2016)

Led the technical enablement, onboarding infrastructure design, curriculum engineering, and mentorship of over 60 incoming engineers across parallel engineering tracks per quarter.

Formalized repeatable technical knowledge-transfer, deployment documentation, and dense engineering specifications into structured, accessible learning paths to align technical delivery teams with corporate project objectives and maximize baseline KPI visibility.

Earth Telecommunication Pvt. Ltd. — Network Operations Engineer (2013–2015)

Managed network architecture and incident resolution for over 500 SME and enterprise accounts, coordinated field services, installation scheduling, maintaining strict high-uptime and SLA compliance.

Standardized structural troubleshooting frameworks across localized hardware, multi-layered routing protocols, and configuration layers, decreasing Mean Time to Resolution (MTTR).

Built a Python tool to scan live hosts and aggregate device relationship data, then rendered the output as an interactive JS/HTML topology graph for real-time component isolation and data-path tracing.

CORE COMPETENCIES

Technical Operations: Tier-3 Support, Incident Management, Root Cause Analysis (RCA), Production Support, SLA Management

Systems Integration: REST APIs, Application Integration, Software Deployment, Configuration Management, Schema Validation

Data & Troubleshooting: SQL Databases, Vector Databases, Log Analysis, Data Investigation, Performance Optimization

Solutions Engineering: Technical Discovery, Solution Scoping, PoC Delivery, RFI/RFP Responses, Technical Consulting

Customer Success: Enterprise Onboarding, Customer Lifecycle Management, Escalation Management, Stakeholder Engagement

Infrastructure & Networking: LAN/WAN, Routing & Switching, Network Troubleshooting, IT Security, Cloud Services

Platforms & Tools: Linux, Microsoft 365, Atlassian (Jira, Confluence), Postman, Git, CI/CD Pipelines

Analytics & Delivery: Power BI, Looker, Agile Scrum, Cross-Functional Collaboration, Agentic Workflow Orchestration

EDUCATION

M.Sc. Information and Communication Engineering
Technische Hochschule Mittelhessen, Germany, (2016 - 2020)

B.Sc. Electrical and Electronic Engineering
North South University, Bangladesh, (2009 - 2013)

LANGUAGES

English (C2) | Bengali (C2) | German (B2) | Hindi (B1)
