PROFESSIONAL PROFILE

Software Solution Consultant and Technical Support Engineer with 10+ years of experience bridging customers, engineering teams and internal product QA functions across B2B SaaS products, cross-platform systems integration, and technical production pipelines.

Led the complete KYC, technical discovery, PoC, training, integrations, and continued support lifecycle for SME and enterprise level B2B clients across North America, APAC, and DACH regions. Expertise in ensuring SLA driven service, onboarding, incident management, database troubleshooting and API validation to deliver quality product and service to stakeholders.

PROFESSIONAL EXPERIENCE

tripunkt GmbH: Quality Assurance Engineer (2024 – 2026)

- Led a team of 4 through the complete pre-release manual QA lifecycle across 3 annual releases per year.
- Managed a suite of test cases covering frontend behaviour, database schema integrity, REST API validation, and third-party connector integrations within Docker testing environments.
- Coordinated defect management end-to-end in JIRA, writing structured reproduction steps, coordinating hotfix verification with engineering, and retesting until closure.

tripunkt GmbH: Software Solution Consultant (2020–2024)

- Owned technical engagement from first discovery through onboarding, custom integration, and retention across 10 international enterprise accounts spanning NAM, APAC and DACH.
- Served as the primary technical bridge between client engineering teams and internal product development, translating functional gaps into platform specifications.
- Designed and executed GTM and SDR pipeline efforts for the Pathfinder platform alongside a cross-functional team of 5, supporting technical qualification of prospective accounts.
- Performed structured technical discoveries and PoCs as part of enterprise procurement processes.

Larsen and Toubro: Technical Training Coordinator (2015–2016)

- Directed onboarding and enablement architecture for 60+ incoming engineers per quarter across parallel tracks, translating dense engineering requirements into structured learning paths.
- Acted as project liaison between Indian, Bangladeshi and Japanese C-level stakeholders, aligning technical deliverables with corporate goals .

Earth Telecom Pvt. Ltd.: Network Operations Engineer (2013–2015)

- Managed technical implementation and resolved routing/configuration issues across 500+ corporate client networks.
- Standardized and executed structured troubleshooting frameworks across multi-layered routing protocols and hardware configurations, driving down Mean Time to Resolution (MTTR).

CORE COMPETENCIES

Sales: KYC, PoC, RFI/RFP, Onboarding, Product Integration, Account Management

Support: Incident Escalation, Root Cause Analysis, SLA Driven Operations

Frameworks: ITIL, SCRUM, Kanban, Lean Six Sigma, GDPR Compliance

Architecture: REST APIs, Webhooks, OAuth 2.0, OpenAPI, OpenAI

Integration: Linux, SQL, PostgreSQL, DBeaver, Postman, n8n,

Networking: TCP/IP, DNS, DHCP, VPN, SNMP, HTTP, JSON,

EDUCATION

M.Sc. Information and Communication Engineering:
Technische Hochschule Mittelhessen, Germany, (2016 - 2020)

B.Sc. Electrical and Electronic Engineering:
North South University, Bangladesh, (2009 - 2013)
