PROFESSIONAL PROFILE

Application Solutions and Implementation Engineer with an established track record of complete customer lifecycle ownership across global markets, with deep expertise navigating the NAM, APAC, and DACH regions. Multilingual and adept at translating intricate technical requirements into scalable backend solutions, leveraging high-level discipline over technical pre-sales discovery, sales development, go-to-market strategies, and API-driven integration troubleshooting to lead cross-functional onboarding frameworks. Operating as a full-stack diagnostics engineer with a solution-oriented approach rooted in empathy and curiosity; anchoring the strategic and technical bridges between enterprise-level customers, software development teams, engineering leads, and CTOs to drive long-term customer success.

PROFESSIONAL EXPERIENCE

[tripunkt GmbH](#) — Software Solutions Consultant (2020–2026)

- Designed and executed the international Go-To-Market (GTM) and Sales Development (SDR) pipelines for the Pathfinder software suite, building commercial pipelines from inception across the NAM, APAC, and DACH regions.
- Led the international sales and support for the Pathfinder software suite from initial pre-sales scoping, PoC and onboarding, to API and database integrations, and through iterative refinements for long-term ROI and technical retention.
- Authored technical integration schematics, data-flow diagrams, and RFI/RFP documentation to support enterprise pre-sales and partner onboarding. Personally managed the full technical and customer lifecycle for 10 premier international enterprise accounts.
- Served as the primary technical bridge between client engineering teams and internal product development teams; communicating system architecture and integration strategies to CTOs, engineering leads and stakeholders.
- Conducted Tier-3 full-stack root-cause diagnostics, API troubleshooting, relational database troubleshooting, and application log analysis to convert critical runtime issues into prioritised product roadmap items

[Larsen and Toubro](#) — Technical Training Coordinator (2015–2016)

- Led the technical enablement, onboarding infrastructure design, curriculum engineering, and mentorship of over 60 incoming engineers across parallel engineering tracks per quarter.
- Formalized repeatable technical knowledge-transfer, deployment documentation, and dense engineering specifications into structured, accessible learning paths to align technical delivery teams with corporate project objectives and maximize baseline visibility.

Earth Telecommunication Pvt. Ltd. — Network Operations Engineer (2013–2015)

- Managed network architecture and incident resolution for over 500 SME and enterprise accounts, maintaining strict high-uptime and SLA compliance.
 - Standardized structural troubleshooting frameworks across localized hardware, multi-layered routing protocols, and configuration layers, decreasing Mean Time to Resolution (MTTR).
-

PROJECTS

- **International SDR and GTM Operating Model**
Led the complete international SDR and GTM operating model for Pathfinder at tripunkt GmbH, building international sales presence where none existed before.
 - **Technical Training and Project Coordination**
Led project coordination and technical training operations for curriculum planning, scheduling, onboarding, documentation, and delivery tracking across 60+ engineers.
 - **Network Deployment and Operations**
Supported LAN/WAN network solutions for 500+ SME and enterprise accounts across Dhaka, managing SLA compliance, incident resolution, and multi-client on-call operations at scale.
-

CORE COMPETENCIES

- **Enterprise Implementation:** End-to-end ownership of enterprise software deployments from pre-sales, RFI/RFP and PoC delivery through application integration, customer onboarding, and post-deployment support and optimization.
 - **Root Cause Diagnostics:** Tier-3 investigation of production-layer issues via database queries, RESTful API audits, schema validation, and multi-layered application log analysis.
 - **Onboarding Enablement:** Designing and delivery of scalable onboarding frameworks and knowledge-transfer programs. Aligning cross-functional engineering teams with delivery objectives at speed and scale.
-

EDUCATION

- M.Sc. Information and Communication Engineering
[Technische Hochschule Mittelhessen](#), Germany, (2016 - 2020)
 - B.Sc. Electrical and Electronic Engineering
[North South University](#), Bangladesh, (2009 - 2013)
-
